

FOREST THROUGH THE LEAVES

GPW GOLDEN
PAINTWORKS.

Annie Moran | Limited Edition Collection | Spring / Summer 2022

PRODUCTS

- Interior Latex High Gloss Paint in White
- Golden Paintworks Mural & Theme Paints: Titanium White, Hookers Green, Sap Green and Payne's Gray
- Golden Paintworks Slow Dry Fluid Acrylics Burnt Sienna
- Golden Paintworks Pre-mixed Metallic Paint 24K Gold
- Golden Paintworks Metallic Texture Tint Base Gold

TOOLS

- 9"x4" or larger trowel
- Medium flat sash brush
- Large filbert head paintbrush

HOW TO:

1 | OVER a wall prepared with white gloss interior latex paint, apply a thin layer of Metallic Texture Tint Base Gold with a trowel and allow to dry.

2 | USING a brush, apply the 24K Gold metallic paint over the metallic texture and cover any white that is showing through. Allow to dry (*Photo 1*).

3 | GO BACK OVER the wall with the metallic texture using a trowel, applying this second coat to most areas. Unevenly leave some areas without the second coat of metallic texture, creating a weathered or distressed antique look. Allow to dry completely (*Photos 2-3*).

4 | MAKE a dark green by mixing Hookers Green, Sap Green, and Burnt Sienna. Using a large filbert head paintbrush, paint a dark layer of leaves over the gold surface (*Photo 4*).

5 | TINT Hookers Green slightly with Titanium White and add a touch of Burnt Sienna to create a middle green, then paint a layer of leaves overlapping the dark layer in areas (*Photo 5*).

6 | USING Hookers Green highly tinted with white, paint a light colored layer of leaves on top, again overlapping the other layers in areas. Add highlights and shadows to leaves on the light and middle value layers as desired (*Photo 6*). Add insects, birds or other small creatures to your liking (*Photo 7*)!
