HOW TO:

ARTIST NOTE: Scale is everything with this finish. For example, on a focus wall, the scale should be quite large, versus on an art canvas. So adjust the size of the stencil scale accordingly.

- 1 | **ROLL** on 2 coats of primer. Let dry between coats.
- 2 | **TINT** the Soapstone quart with 2 ounces of universal black tint and mix. (I took my quart to a local paint store.) Trowel on 2 coats of the mix (*Photo 1*). Let dry between coats.
- 3 | **POSITION** the stencil, then tape down. Use a stencil brush to tap on a thin coat of WundaSize (*Photo 2*). Let come to tack. Remove the stencil. Place one color of foil on top of the WundaSize. Use the Robert rubber metal brush tool to burnish the stenciled area (*Photo 3*). Remove the foil. Repeat 2 more times, using the other 2 colors of foil. I've used one foil color per stencil here (*Photo 4*).
- 4 | **MOVE** the stencil around, overlapping the foil patterns, and tap on the Penny and Vintage Copper Metallic Paints with the stencil brush (*Photos 5 and 6*).
