

# INDUSTRIAL ROMANCE

**GPW GOLDEN**  
PAINTWORKS.

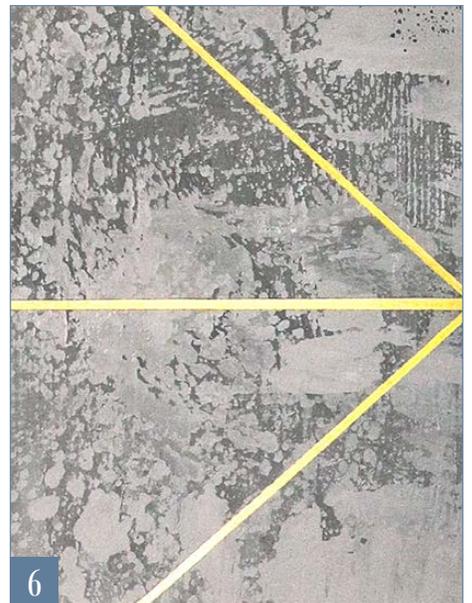

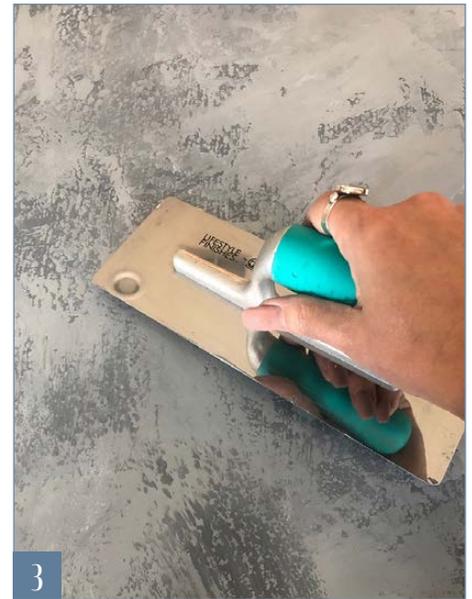

**Artkeyologie** | Limited Edition Collection | Fall / Winter 2021

#### PRODUCTS

- Golden Paintworks Slow Dry Fluid Acrylic in Titanium White and Carbon Black
- Golden Paintworks Pre-mixed Metallic Paint Just Brass

#### TOOLS

- Golden Paintworks Small Plaster Trowel 200x80
- 2" Sash Paintbrush
- Small 1" or .5" Paintbrush
- Blue Painters Tape

- 1 | **MIX** 3/4 cup Slow Dry Fluid Acrylic Titanium White with 1/4 cup of Slow Dry Fluid Acrylic Carbon Black. Paint entire canvas with that shade. Let completely dry (*Photo 1*).
- 2 | **TAKE** what's left of your original mixed gray paint and add another 1/8 cup of the Slow Dry Fluid Acrylic Titanium White, creating a slightly lighter Gray tone. With your trowel, lightly trowel on your new shade to create a subtle concrete look. Let dry completely (*Photo 2*).
- 3 | **TAKE** what's left of your second shade of Gray and add another 1/8 cup of Slow Dry Fluid Acrylic Titanium White to again create a lighter tone. With your trowel, lightly skip trowel over your design to create one more level of texture. Let dry completely (*Photo 3*).
- 4 | **TO ADD** the metallic lines, measure out your design and lightly draw out your lines with a pencil. Now take blue tape and tape out your lines in the thickness you desire. Burnish your tape lines. Brush on your Metallic Paint Just Brass or any of GPW's myriad of metallic colors (*Photo 4*). Let dry completely and add a second coat of paint. Let dry and pull tape for your final reveal (*Photo 5*). Here is a closeup of the texture (*Photo 6*).
