- Golden Paintworks Pre-mixed Metallic Paint Bright Silver
- Golden Paintworks Pre-mixed Metallic Paint Pewter
- Golden Paintworks Glazing Gel
- Regular Paints: SW Tricorn Black in Satin, SW Porpoise, BM Victorian Pewter
- Aluminum Powder

TOOLS

- Chip Brushes
- Flexible Plastic Japan Scraper

- 1 | BASECOAT** in black. SW Tricorn Black is a good option.
- 2 | BRUSH** on the grays and black regular paint using a flexible spatula or squeegee in a vertical fashion, blending together with flexible plastic Japan trowel. Let dry (*Photos 1-4*).
- 3 | USING** the same method as step 2, blend together Golden Paintworks metallic paints. Can blend horizontally as well as vertically. Let dry (*Photo 5*).
- 4 | MIX** Glazing Gel with aluminum powder and trowel one coat vertically and horizontally over entire surface, being mindful to move quickly and don't over work areas. Once it begins to set up, it can scrape off (*Photo 6*). Here is the completed finish (*Photo 7*).
