PRODUCTS

- Interior Latex Eggshell Paint in Seafoam Green
- Golden Paintworks Mural & Theme Paints:
Sap Green, Hookers Green, Phthalo Blue Green Shade,
Payne's Gray and Titanium White
- Golden Paintworks Pre-mixed Metallic Paint Roman Gold

TOOLS

- Angled no. 8 or 10 acrylic paintbrush
- Small angled paintbrush
- Thin, round paintbrush

HOW TO:

- 1 | **PREPARE** the wall with the latex interior paint.
- 2 | **MIX** mural paints to achieve a darker shade of green that coordinates with the latex base color.
- 3 | **USING** an angled brush and the darker green shade you've mixed, create shapes of grass clusters with slanted strokes in groups (*Photo 1*).
- 4 | **WITH** a smaller angled brush, add shadows at the base of the clusters with Payne's Gray Mural & Theme paint (*Photo 2*).
- 5 | **STILL USING** the small angled brush, make strokes at the tops of the clusters with Titanium White Mural & Theme paint and Sap Green Mural & Theme paint that has been tinted with white (*Photo 3*).

- 6 | **WITH** a thin round brush, use Roman Gold metallic paint to create wispy flowering tips and highlights (*Photo 4*). Here is the completed piece (*Photo 5*).
