HOW TO:

- 1 | **PREPARE** the wall with a slate blue colored latex paint or Payne's Gray Mural & Theme paint added to a white latex paint to create this color.
- 2 | **WITH** a large brush, swirl thin patches of Titanium White Mural & Theme paint and Moody metallic paint to create areas of light and dark sky. Feather and blend out the patches well with a dry brush (*Photo 1*).
- 3 | **SKETCH** out a silhouetted landscape of your choice (*Photo 2*), then determine areas where you would like to show sunlight reflection. Use a medium sized brush to apply metallic paint in 24K Gold where sunlight reflection is desired, feathering and blending out the edges (*Photo 3*).
- 4 | **PAINT** in your landscape silhouette with undiluted Payne's Gray Mural & Theme paint (*Photo 4*).
